Key Points

- **Marking:** +5 for each correct answer, -1 for each incorrect answer (MCQ-based test).
- **Mode:** Computer-based test (CBT), conducted in multiple shifts across test cities.
- **Question type:** All questions are multiple-choice (MCQ) across all sections.
- **Subject count:** Candidates may choose to appear for a combination of language(s), domain subjects, and the General Test depending on target programme requirements — not every university requires the General Test.
