

CUET UG 2027 Notification Guide

An unofficial, plain-language guide to what to expect — not the official NTA notification

As of September 2026, the National Testing Agency (NTA) has not released the official CUET UG 2027 information bulletin. This guide explains what that notification will contain, where to find it, and the typical release pattern from the last few years, so you know exactly what to watch for and when.

What the CUET UG Notification Typically Announces

- Exam dates and the registration window for CUET UG.
- The full list of participating central, state, deemed, and private universities for the year.
- The list of language, domain-specific, and General Test subjects on offer, and how many a candidate may pick.
- The category-wise application fee, and the maximum number of subjects covered by the base fee.
- Eligibility conditions, including the accepted Class 12 boards and passing years.
- The detailed exam pattern: sections, number of questions, marks per subject, and the marking scheme.

Where NTA Usually Publishes It

- The official CUET UG website: cuet.nta.nic.in
- The main NTA website: nta.ac.in, under the “Public Notices” or “Examinations” section.
- Press releases picked up by major national newspapers and education news portals.

Typical Release Timeline (Based on Past Years)

- Notification and information bulletin: expected in January 2027.
- Registration window: typically stays open for about 6–8 weeks after the bulletin is released.
- Correction window for submitted applications: a short 2–3 day window, usually in March.
- City intimation slip: issued a few weeks before the exam.
- Admit card: released roughly 5–7 days before each candidate's exam date.
- Exam window: CUET UG is typically conducted over 15–20 days in a computer-based mode, historically between May and June.
- Result declaration: typically 4–6 weeks after the exam window closes.

These are editorial projections based on the release pattern of CUET UG 2024, 2025, and 2026 — not confirmed NTA dates. Always cross-check against the official notification once it is released.

What You Can Do Right Now, Before the Notification Is Out

- Shortlist the universities and courses you're targeting, and note which domain subjects each requires.
- Start covering your Class 12 syllabus in the subjects you're likely to select for CUET, since the syllabus changes only slightly year to year.
- Take a free mock test and a previous-year-pattern practice paper to get familiar with the CUET question style and timing.
- Keep your Class 10 and 12 documents, a valid photo ID, and a recent passport-style photograph ready for registration.
- Bookmark cuet.nta.nic.in and check it periodically starting December 2026.
